

## DEFIBRILLATOR MOUNTING BRACKETS AND HOLDERS

These mounts have been designed to provide the maximum protection for your defibrillator, minimizing the risk of costly repairs due to device impacts or falls during transport. More importantly, these mounts will protect your staff and patients from flying defibrillators in the event of a sudden stop, accident or roll-over. These are all designed to meet 10G hold force.

DESCRIPTION	PART #	PRICE
<b>PHYSIO-CONTROL MOUNTS</b>
